Welcome Address

It is with great pleasure and delight that I welcome you to Tender Hearts Foundation, an initiative on the mission to empower underprivileged women and young girls through relevant education, skills development, innovative healthcare and focused livelihood programs.

This we have done over the past years and have recorded significant impact through various activities that have been beneficial to many women and young girls.

As founder and visioner, inspite of the many challenges we are faced with as a not-for-profit organisation, the vision still remains clear in sight and we continually do our best to make sure these underprivileged women are empowered, upskilled and uplifted.

I welcome you on this journey and look forward to your continued support and contribution to this noble cause.

Lady Amb. Sally Othihiwa

Founder, Tender Hearts Foundation

About Us

Who We Are

Tender Hearts Foundation is the leading heart and mind charity for underprivileged women. We are committed to giving every underprivileged woman and young girl a voice. We work in the space deemed as poor, indigent, unsuitable and uncultured, helping women and young girls tackle the barriers they face and supporting them to create empowering lives for themselves, their families and the community. We are registered with the Corporate Affairs Commission (CAC) and Lagos State Ministry of Women Affairs and Poverty Alleviation.

Why We Do What We Do

We recognize that the underprivileged women and girls are disproportionately affected by poverty and discriminations and suffer abuse mentally

and violations in the realization of their rights, entitlements and access to central resources. Our experience has shown us that when equipped with the proper resources, women and young girls have the power to transform their own lives and help their entire family, hence readdressing the cause of poverty and social injustice in the community.

Our Vision

A voice to every underprivileged woman

Our Mission

Our mission is embedded in our mandate which is to empower underprivileged women and young girls through relevant education, skills development, innovative health care and focused livelihood programs.

Our Ethos

At Tender Hearts Foundation we are:

Heart Led

With our hearts, we reach and search out for the underprivileged women and young girls who need the most help. We have found these to be widows, abused women suffering from domestic violence, single mothers and young girls that have found themselves on the streets. In the last 2 years, we have reached **over 500 women**.

Mind Led

We believe that educating the mindset and advocating for the correct mind set is key to empowering underprivileged women and young

girls. We design, develop and deliver programmes that reshape the mindset, enabling underprivileged women and young girls to believe in potentials within them, the power to speak, the power to do great things, the power to be a significant and positively contributory citizen.

Hand Led

We believe that every hand must be empowered to generate income. We train women and young girls on how to identify their strengths, a trade, a skill or education and how to ensure that that their hands strive for good.

Our Values

At all three levels (heart, mind and hands) we encourage and enforce our four organisational values.

Respect

Courage

Enabling

Accountability

Respect

We take time to listen to underprivileged women, young girls, each other and to the people and communities we work with, because we believe everyone's voice deserves to be heard and treated as important.

Enabling

We give everyone we work with the chance to be empowered; we believe that no woman or young girl should be classed lower than any; and everyone, if giving the chance, has what it takes to voice out their dreams, to live an empowered life and to contribute to the society.

Courage

We are driven by our commitment to make life better for the underprivileged woman and young girls; we hold ourselves accountable to our aims

and objectives and build into the lives of the women and girls, courage to be self independent. This is the courage and ability to speak, act, reclaim and rebuild their lives even in the face of fear and uncertainty.

Accountability

We enshrine accountability and transparency into all that we do; upholding integrity at all times. Our charity has worked in Nigeria since October 2018, focusing on alleviating poverty and the empowerment of women and young girls.

Our Goals and Objectives

- We deliver skill development training programs for women and young girls in our society
- We work with adolescent girls to protect their health and rights by providing them access to sexual and reproductive health counselling, information and services; comprehensive sexuality education
- We co-operate and assist in suitable joint venture with the Governmental Organizations and agencies seeking the goal of redressing poverty and improving health status of women
- We organize women empowerment, capacity and skills development programs aimed at enabling them to become economically and socially independent
- We provide immediate and emergency help in crisis

Programmes and Projects

Equipping underprivileged women and girls. We believe it has a ripple effect. For us, we just do not want to feed people with fish, we want to train and skill them up to catch fishes themselves. We uplift and upskill to create a **ripple effect**.

Woman of Purpose (The Foundation's Annual Event - An Empowerment Program)

Tender Hearts Foundation has embarked on self-actualization schemes and skills development programs for indigent women, girls and widows across Nigeria. It involves teaching and providing basic support for women in different communities through production of domestic items like candles, soaps, beads, hats, catering, perfume, dettol, shampoo, fashion designing, grinding machines, sewing machines, saloon equipments etc. These beneficiaries have become entrepreneurs on their own and are encouraging and training others towards self-resourcefulness. We also hold an annual event known as Woman of Purpose where we focus on training and equipping women and young women with life skills. This programme extends to providing funds for learning a trade or setting up a trade followed by a mentoring programme.

Ripple Effect... Why?

We genuinely believe that by enabling vulnerable women and girls, we add value to the foundation of our society, we stand a better chance of creating a better nation and a better society including a better chance of creating – “A world safe for every child as set out by the UNICEF. Our stance on this matter is that women and girls are the bedrock and main carers in our society and by empowering them to live dignified and independent lives; this consistently trickles down into the life of every child, creating stable homes and stable lives for thousands of children.

International Women's Day Celebration (March 8th)

Tender Hearts Foundation recognises auspicious days as this to celebrate the girl child, advocate for better living, gender balance and speak up against boring stereotypes as related to women. We hold seminars, workshops, debates and colloquial discussions and colloquial discussions and campaigns/health talks to continue in upholding the stance and importance a woman is entitled to in her environs and the society at large. In some cases as decided by the THF team, freebies like sanitary pads, detergents, antiseptics and disinfectants are given to females in celebration of this day. Hence, much more can be achieved with your donations and support.

International Widows Day (June 23rd)

On 21st December 2010, the United Nations General Assembly formally adopted 23rd June as International Widows Day, endorsing by unanimous acclaim, a proposal introduced by President Ali Bongo Ondimba of Gabon. As well as formally recognizing 23rd June as a day of observance, the accompanying

resolution called upon "Member States, the United Nations system and other international and regional organizations to give special attention to the situation of widows and their children". In the same stead, Tender Hearts Foundation adopted this day to raise awareness of the issue of widowhood. One of the foundation's key goals is to highlight what it describes as an unforeseen calamity and

provides means of help for the women living in widowhood and suffer from in-laws abuse, maltreatment, rejection and economic deprivation purely because they have lost their husbands.

'Face of Giving' (December)

'Face of Giving' is a Tender Hearts foundation initiative to put smiles on the face of indigent women and widows during the festive season. We tagged it 'The Face of Giving' because it's a time that we encourage people to give no matter how small it is so the festive season can be felt in families that are poor also. The program is set to prioritize and support indigent women and widows by relentlessly putting smiles on sad faces and so much more for homes and families. In this season of love and festivity, surprise gifts like gift packs, food items, clothes, shoes etc. are given out to these women and their families and are encouraged to

continue to stay hopeful and engage in activities that help sustain and make better their lives.

Health Outreach Program

No fewer than 3000 persons have so far benefited from Tender Hearts Foundation sponsored medical outreach across communities in Nigeria.

It is a week-long medical outreach, with items like free insecticide treated nets to repel mosquitoes; as well as anti-malaria drugs,

multivitamins and other drugs for common illnesses, sanitary pads for young girls and delivery kits for pregnant women.

Others are free HIV test, counseling and awareness talk, blood sugar level checks, malaria, hepatitis tests and dental checks.

Youth Engagement and Inclusion Program (Women Folkhood Sensitization and Awareness Program)

This is an event that aims to reflect the "woman synergy and strength" as a team, working together to tackle pertinent issues bothering around women and young girls through educative and enlightenment programs which may be outreaches, seminars, awareness rallies, round-table discussions etc. These programs are mostly held in partnership with the Lagos Government Education Authority, Lagos Island, Lagos State, Nigeria.

Skill Acquisition Workshop Internships

The skill acquisition internship programmes is powered by The Lagos State Government, through the Ministry of Women Affairs and Poverty Alleviation (WAPA), in conjunction with registered women NGOs like Tender Hearts Foundation. It is targeted at over 500 widows across the state, to train and empower young widows in various vocational skills ranging from hair braiding and weaving, gele-tying and makeup application, fabric stoning, catering and food preparation, production of soap, pomade and stove wick, customised throw pillows, interior accessories, Ankara craft and leatherworks amongst others. It is a free training put in place to ensure that, this category of women avail themselves of this opportunity of acquiring valuable skills in order to be self-dependent.

Conclusion

We are compassionate and committed. All our programmes are geared towards:

- Building capacity towards independent living
- Equipping women and young girls with life-long skills for trading and livelihood
- Building self-confidence, dignity and strength geared towards being responsible and contributory citizens
- Providing emergency and immediate provision in response to group and individual needs;

- Giving women and girls a meaningful and contributory voice in the society through a range of awareness campaigns.

We believe that:

- Every widow should have the opportunity to rebuild their lives, to be self-reliant in a trade or a job, and be enabled to bring up responsible children
- Indigent women must be supported to live dignified lives, which include having a trade or a job
- Women (particularly young women) who have been subject to abuse, must be supported to rebuild their lives, attain skills and live dignified contributing and giving back to the society
- Where a widow, an indigent woman or a girl that has suffered abused has an immediate and emergency need particularly in the areas of health, mental, nutrition and education, well-being, this should be met
- The voice of women and girls should be heard

Your support via donations will go a long way to alleviating the challenges that women, widows and young girls face in our community. Your donation can be made to:
